Aqdar Ahmad

Computer Systems Engineer | Competitive Programmer | Design Verification & AI

Jenin, Palestine · aqdarahmad2@gmail.com · linkedin.com/in/aqdar-ahmad-b30832421 · github.com/aqdarahmad

Activities

LeetCode	**Solved 48 Problems**	**@aqdarahmad2003**
CodeForces	**Solved 279 Problems**	**@AqdarAhmad**
IEEEXtreme 19.0	**Ranked 5th in Palestine, 2nd at Arab American University**	

Technical Skills

- **Programming:** C, C++, Java, SystemVerilog, x86 Assembly
- **Hardware Verification:** UVM, SystemVerilog, NI Multisim, Verisium Debugger
- **Data & AI:** YOLOv8, RAG Pipelines, ChromaDB, Roboflow, Google Colab
- **Frameworks:** FastAPI, Flutter, MERN Stack
- **Tools:** Git, GitHub, Postman, Linux

Experience

Design Verification Engineer — Trainee, *Orion VLSI Technology, Ramallah* Sep 2025 – Nov 2025

- Verified a 32-bit ALU using UVM in SystemVerilog; built a reusable testbench (driver, monitor, scoreboard, agent).
- Applied constrained-random stimulus and functional coverage to detect and report design bugs with Verisium Debugger.

Problem Solving — Trainee, *Gaza Sky Geeks, Remote* Aug 2025 – Oct 2025

- Solved 50+ algorithm and data-structure challenges covering arrays, linked lists, recursion, and sorting.

Projects

Fabric Defect Detection System Using AI Senior Graduation Project

AI-based fabric inspection system using YOLOv8, reaching 85.1% mAP@50, 86.8% precision, and 81.7% F1-score on a custom defect dataset (holes, stains, tears). Includes a Flutter mobile app connected to a Raspberry Pi 4 camera pipeline.

Education

Arab American University, Jenin, Palestine — **B.Sc. in Computer Systems Engineering**, 2026

Alyamon Girls Secondary School, Palestine — **Tawjihi — 93%**, 2021

Certifications

- Design Verification – Orion VLSI (May 2026)
- Frontend Development – Udacity (Jul 2026)
- Problem Solving – Gaza Sky Geeks (Nov 2025)
- MERN Stack – Palestine Tech Hub (Oct 2025)
- IEEEXtreme 19.0 – Participation (Oct 2025)
- Job Search Skills – EFE-Global (Apr 2025)
